(So fire me)

Deanna Falge-Pritchard reported that she had attended the Interest Group meeting and learned that our budget from the Chancellor’s office had been approved for $1,500. She shared the information learned about other groups supported on campus. Discussion was held regarding the status and levels of support given to these groups. It was the consensus of the Board members attending that it might be well if the Chancellor is made aware of the significant differences of support given to the Emeriti and the UCDRA. Further discussion on this is needed.

Additional copies of the Bylaws were distributed to those who has missed getting them earlier.
